

# George Acosta feat. Truth, Mellodrama (Gareth Emery Remix)

Mellow drama, a song for you and me...  
Everyday you take me for a spin  
In this white lie world were all living in  
Maybe I, if I cried a little more  
My brain wouldnt hurt, my body wouldnt be so sore  
Cut neatly in a row, this medication grows  
And grows and grows  
They told me that you ruined me  
And I said "Well see, just let it be."  
All I asked for was a little consideration from you  
All I wanted was a little respect in the end  
All I wanted was a little dignity, from you  
You play me a fool when you cut me down, Ill only stand higher  
Now Im letting you go, I dont need you anymore  
Now Im letting you go  
Why wont you let me be?  
Why wont you let me be free?  
Mellow drama...  
I chose to handle you in my mind, with time  
Now, Im broken  
Cause I was free, I believed I was one  
Of the chosen ones  
Now Im letting you go, I dont need you anymore  
Now Im letting you go  
Why wont you let me be?  
Why wont you let me be free?  
Mellow drama...  
Mellow drama, a song for you and me  
Now Im letting you go, I dont need you anymore  
Now Im letting you go  
Why wont you let me be?  
Why wont you let me be free?  
Mellow drama...
