## George Duke, How About You?

How about you Will you see this through How about you Will you be strong, or am I wrong

Have I stayed too long And sung the wrong song, oh, baby Come home too late, put you in a state That you can't see your way through

Oh, how about you Will you even try not to deny that that is right with us Baby hold on, before it's gone, oh

How about you, baby Do you say we're through Oh, how about you Have moved on, found a new song

Oh,how about you Should we start anew Won't you answer me please,I'm down on my knees beggin' you

To make your move Do you feel the same Or am I insane, blinded by cold-hearted love Is this a game, that both of us lose

Baby, please, please choose

How about you Do you feel like I do How about you How about youThis tango's for two Oh,how about you

Will you even try not to deny that that is right with us Or am I insane, blinded by cold-hearted love Is this a game, that both of us lose Come on, just choose

How about you, baby I want to see this through Now it's up to you, decide what you'll do before it's too late
