

George Fox, Chemical Dreams

Floating in calm waves silence and no shame
Send me to the ether world
Wash it down with salt

Time-honoured deals and virtues unspoken
The nat-ure of the beast
You take what's yours and don't ask why
Rise above the curfew, even if it hurts you

Better softly keep the focus true the dream is on
The smiling tides of chemical dreams
won't get you where you want to be
won't get you where you want to be

Salient pearls of wisdom if taken right
Married with good intention, you'll learn to fly

Better softly keep the focus true the dream is on
The smiling tides of chemical dreams
won't get you where you want to be
won't get you where you want to be
