

George Jones, Same Old Me

Written by Fuzzy Owen (?)

With time my face has wrinkled but my blue eyes still sparkle
With the love I felt for you the day we met
And to me you're just as lovely as the first time I saw you
Times have changed but our love hasn't yet

(Repeat chorus)

'Cause I'm still the same ol' me loving the same sweet you
Time hasn't withered our hearts
And when my days are through I'll still be loving you
Even death can't keep us apart

And these hands that once were steady have now begun to tremble
But when they touch you the same old feelings there
And your smile is still as special as it was the day we married
Years haven't changed the love we share

(Repeat chorus)
