

# George Lamond, It's Always You

If you could read my mind  
If you could look inside my heart  
The only one you see, its you  
It's always you

I've been crying alone for another night  
Wishing your love would have treated me right  
Wishing that you weren't on my mind  
Remembering how, each and every time  
We used to say I love you, remember  
I wish you remember the morning so bright  
And I knew in my heart  
Nothing could ever make our love fall apart  
And now the thought of losing you  
Because of words spoken so untrue  
If I could turn back the hands of time  
I would make no mistake to redeem our love

Chorus:  
If you could read my mind  
Everything you see  
It's always you  
Everything about you

If you look inside my heart  
The only one you see  
It's always you  
Look inside my heart  
It's always you

You told me you'd give our trust a chance  
A moment to prove that my lies couldn't stand  
A minute to look into my eyes  
That's all it could have taken to realize  
And now the thought of losing you  
Because of words spoken so untrue  
If I could turn back the hands of time  
I would make no mistake to redeem our love

Chorus(2x)

We used to say I love you, remember  
I wish you remember the morning so bright  
And I knew in my heart  
Nothing could ever make our love fall apart

Chorus(2x)
