George Michael, Move On

(George Michael)

I've been in and out of favour with lady luck I gotta tell you I've seen things i never wanted to see

I've got to get back on my feet I feel like i've been sleeping Sweet, sweet time Has been a real good friend of mine

Waiting for that change of season Oh the winter's been so long Searching for that rhyme or reason You've just got to

Move on Hold it together, move on Life's so short, move on Only time will set you free

You put your fears behind you Better get yourself where you wanna be I think of all the days and nights i spent crying And i move on

I've been in and out of favour with love Because i gotta tell you I've been things i never wanted to be And then some angel called me up He told me i was sleeping Said don't waste time 'Cos even angels say goodbye

Waiting for that change of season Oh the winter's been so long Searching for that rhyme or reason You've just got to

Move on...

And oh, there goes another season Getting hard to find a decent song to play But oh, i guess i got my reasons Everybody thinks i'm doing a.o.k They ought to know by now

Chorus

You put your tears behind you Better get yourself where you wanna be I think of all the days and nights i spent crying Before my angel set me free

I'm gonna be lucky in love someday
