

George Morgan, Would You Believe

Would you believe that it was only yesterday
We vowed our love was true forever more
Can you believe that we have all these heartaches on the way
Before we've swept the rice up from the floor

Would you believe her love like ours will go astray
Since I picked you up and brought you through the door
Can you believe the angry words we've heard each other say
Before we've swept the rice up from the floor

I don't believe in miracles but now I think I'll pray
Someone will send a miracle to help us find the way
Can you believe our love is gone forever
Before we've swept the rice up from the floor
(steel)
I don't believe in miracles...
