

# George Stanford, Get Free

Sing it like this  
For the chick at the top of the list  
With the eyes and the lips and  
Her best jeans on  
Thinking to herself about the way it's gonna  
Be when she gets free.

Play it like that  
For the kid in the back of the class  
With the backwards hat and  
His headphones on  
Thinking to himself about the way it's gonna  
Be when he gets free.

We went through it all  
Just to throw it all away  
We tried everything  
To escape the debts we made  
Our love made us this way  
Do you remember how  
We always used to say  
If we get lost along the way

Sing it like this  
For the chick at the top of the list  
With the eyes and the lips and  
Her best jeans on  
Thinking to herself about the way it's gonna  
Be when she gets free

Play it like that  
For the kid in the back of the class  
With the backwards hat and  
His head phones on  
Thinking to himself about the way it's gonna  
Be when he gets free

We would go and blow it all  
Until it blew us all away  
We changed everything  
And we still ended up the same  
Our love made us this way  
Do you remember how  
We always used to say  
If we get lost along the way

Do you remember how  
We always used to say  
Do you remember how  
We always used to say  
If we get lost along the way
