

# George Strait, Four Down And Twelve Across

I don't know what to think of it  
Sometimes I hate it  
Sometimes I love it  
Girl, this relationship we're in  
To say the least it's puzzlin'

Like a crossword puzzle  
Fill in the blanks

[Chorus:]  
What's four down and twelve across  
Two letter synonym for lost That's me  
And a three letter word  
That rhymes with through  
Oh I get it, that's you

Never believed in horoscopes  
But to the left of the ad  
For a new dishwashin' soap  
Dear Abby's got some good advice  
For a troubled couple lost in paradise

In the Living section  
Page two

We try and try
