

George Strait, Heaven Must Wondering Where You Are

Some where up there beyond the blue
Surley by now somebody's missin' you
I found the angel they must be lookin' for
Heaven must be wondering where you are

When I look into your eye's
It's so plain to see
Nothin' here on earth describes what you mean to me
Out of this world when I hold you in my arms
Heaven must be wondering where you are

Lucky me to be the one to find
Someone like you this side of paradise
I know how lost I'd be without here sweetheart
Heaven must be wondering where you are

Some where up there beyond the blue
Surley by now somebody's missin' you
I found the angel they must be lookin' for
Heaven must be wondering where you are

I found the angel they must be lookin' for
Heaven must be wondering where you are
