George Strait, If It's Gonna Rain

If it's gonna rain I hope it pours
Thunder and lightning
Like never before
'cause that's how I feel
Here in my heart
If it's gonna rain
Let the stom start

If you're gonna leave go on and go
Don't even look back
When you hit the road
If that's how you feel
About you and me
Now's a good time
So go on and leave

I've never been one for doing
Something half the way
I've loved you with all my heart
But it's all been in vain

It's gonna hurt
Cut to the bone
Break my heart in two
When you move on
I'm gonna cry a river of tears
It's gonna rain and rain and rain
'Round here for years

I'm gonna cry a river of tears
It's gonna rain
Let the storm start
If it's gonna rain I hope it pours
