

# George Thorogood & The Destroyers, You Talk T

You talk too much, you talk too much  
I can't believe the things that you say everyday  
If you keep on talking baby  
You know you're bound to drive me away

Now you get on the telephone with your girlfriend  
Your conversation baby ain't got no end  
Yakety-yakety-yakety-yak all the time  
You keep on talking baby drive me out of my mind  
You talk too much  
I can't believe the things that you say everyday  
If you keep on talking baby  
You know you're bound to drive me away

Well I laid out in the afternoon I start to nappin'  
You walk into the room with them jaws a-flappin'  
You keep that motormouth moving morning, noon and night  
You keep on talking baby make my head turn white  
You talk too much  
I can't believe the things that you say everyday

If you keep on talking baby  
You know you're bound just to drive me away

I think you're trying to put me through some kind of test  
I'm begging you baby won't you give it a rest  
You talk about people that you don't even know  
Keep it up baby I'm gonna pick up and blow  
You talk too much  
I can't believe the things that you say everyday  
If you keep on talking baby  
You know you're bound to drive me away

Don't get me wrong baby I don't mean to complain  
But if you keep on talking you're gonna drive me insane  
You keep on talking all around the clock  
I'm begging you baby won't you please stop  
You talk too much  
I can't believe the things that you say everyday  
If you keep on talking baby  
You know you're bound to drive me away
