

# Gerald Levert, What Makes It Good To You

heaven knows how i longed for this  
ever since we kissed  
anticipation is killing me  
cause i wanna be your favorite fantasy  
won't you talk to me, tell me, where your spot is baby  
where ya sensitive  
and i want to concentrate, concentrate  
on all those things

(chorus)  
what makes it good to you  
i wanna know  
i wont be happy til you  
scream no more, say it's yours, no premature nothing  
what makes it good to you

?  
And i cant belive  
it's about to go down  
and i am too  
from your head  
down down down  
until you tell me when to stop (wooo)  
cause these lips can't resist kissing you  
and your tender body  
ooh i don't mind  
you gotten me through (you gotten me through)  
girl won't you tell me what makes it good

(chorus)

(bridge)  
see i don't wanna get there  
before you do  
let's put our selves together baby  
and now we're gonna cruise  
would'nt that be sweet (would'nt that be sweet)  
if we came together  
every thing was right  
from the very first night  
said wouldnt that be clever wouldnt that be wouldnt that be  
what makes it good to you?

(chorus)  
adlibing i wanna make you mine, just give me sign when your ready
