

Geri Halliwell, Desire (Your Kiss Kills Me)

I'm a sure-fire pussy cat
I ain't gonna tell you that
I'm giving myself away
You're a real catch, that's a fact
I ain't gonna tell you that
Baby I want you to stay

My fever's high, your tide is low
Just don't forget to love me
No no no no

Whatever you sold me
Whatever you feed me
It's taking me over and over
I'm the cat that can fight it
Whenever I need it
Your kiss kills me with "Desire

Young gun you're the one
Lift me up and take me on
Just like you did in my dream
Sweet man I know you can
But I would never tell you that
Baby I'm diggin' your scene

My fever's high, let's roll the dice
But don't forget I love you
No no no no

Whatever you sold me
Whatever you feed me
It's taking me over and over
I'm the cat that can fight it
Whenever I need it
Your kiss kills me with

You're contagious, I'm confusing
We can take this anywhere we like it
You're amazing, so amusing
Your kiss kills me with desire

Whatever you sold me
Whatever you feed me
It's taking me over and over
I'm the cat that can fight it
Whenever I need it
Your kiss kills me with - Desire
