

# Gerry Rafferty, Sweet Love

Sweet love  
Sweet love  
Sweet love

I'm in love with you baby  
Why don't we take it all the way  
I can see us flying, I can see us trying  
To keep it all in a day

We'll live in the moment  
I'll babysit you through the night  
When we get this feeling  
As the cold moon comes stealin' (I'll say)  
Babe I want to get inside your skin  
Girl I need your loving touch  
I know that you can see the mood I'm in  
Girl I want you oh so much  
Baby baby I got news for you  
I've been crying like a madman in a storm.

I will love you whenever this sweetness comes around  
Love you every time you make this sound (yeah)  
I will love you whenever this sweetness comes around.

I don't need any book of love  
I can see that you're trying  
I don't need any book of love  
I believe, I believe, I believe, I believe  
Yeah, that you make me feel so good  
You make feel that Spring has sprung  
We can make it together, yeah no matter the weather  
I'll say, babe, I want to get inside your skin  
Girl, I need your loving touch,  
I know that you can see the mood I'm in  
Girl I want you oh so much  
Baby baby I got news for you  
I've been crying like a madman in a storm

I will love you whenever this sweetness comes around  
Love you every time you make this sound (yeah)  
I will love you whenever this sweetness comes around.

[Fade]  
Give me your sweet love baby  
Give me your sweet love baby (sweet love)  
Want to spend my life with you baby  
Want to spend my life with you (sweet love)
