Get Smart!, In The Dark

In the dark, take me by the hand
Lead me to another land
Promises, too soon to make
Fragile feelings too soon to break
In the dark (x2)

In the dark, flying through space
I can see your terrified face
I realise why we're here
The future really is not too clear
In the dark (x2)

In the dark (x2)
Where's the light, in the dark
Where's the light, I'm in the dark
