

Ghost Dance, Walk In My Shadow

Dont tell me what I want
Dont tell me what I need
Dont say you know whats best for me
Ive had enough of dancing to your tune
So listen up Ive got news for you

From now on Im gonna play to win
And I dont care what anybody thinks

You can walk in my shadow
You can walk in my shadow

Whats good for you is good for me
Walk a mile in my shoes and then youll see
How it feels, one day youll know
I can see you laughing baby but its no joke

From now on Im gonna play to win
And I dont care what anybody thinks

You can walk in my shadow
You can walk in my shadow

You can tell me now how it feels
You better get used to it coz heres the deal
When I say jump thats what I mean
And when I say, you come running to me

From now on Im gonna play to win
And I dont care what anybody thinks

You can walk in my shadow
You can walk in my shadow
