

Ghost Of The Robot, It's Nothing

Come on quickly catch me
You really are the best thing
That has happened to me since 1983
Yiu buy into the views
Of the hollywood fued
Let's kick our feet up
Watch the world fall

You say its nothing
Uninvited something
Nothing ever stays forever
When you better give me a call
Because you don't know what to do
You follow men in suits
Who tell you everything is all cool

Don't act dumb
K know where you're coming from
From the magazines
Oh you demographic teens
Their statistics are your sickness
Oh i need a witness
Why can't any body else see

You say its nothing
Uninvited something
Nothing ever stays forever
When you better give me a call
Because you don't know what to do
You follow men in suits
Who tell you everything is all cool

I want more than this
Something without tricks
Something of my own
I want you to see
Something more than dreams
that eventually mislead
By the TV screen
sure they flash and gleam
Make nothing what it seems
Is this this really what we wanted after all?
