

Gigi D'Agostino, Silence

Stay with me forever
Sharing love together
Keep my dream alive
Touch with me the sky

Is got to be the reason
Share with you my freedom
Steal a ray of sun
While I'm here with you
You must come along
Everywhere I go
I just want to love you so

To fall in love with you
I never ever played
I just want to say hello
It takes so long to draw
From every where I go
I just want to love you so

To fall in love with you
I never ever played
I just want to say hello
It takes so long to draw
From every where I go
I just want to love you so
