

Gigi Dagostino, Amorelettronico

You still close, when somebody says
And I want to you not by your way,
And you tell me this time
Nowhere I go I'm not by your side,
Time after time after time
Never you used it control by my side,
Never you made and you tell me goodbye
You are my side, you are my soul
You never talk
When you tell when somebody says
Never used to talk I feel this way,
Never your set my side
You are my choice and we fly away,
Somebody saw that way
Used to control other side by your type,
Never you say it, but i feel is the same
Aaaaare
Your are my land and my soul
Nobody nobody nobody
(repeat)
Nobody nobody nobody
You still close, when somebody says
And I want to you not at your way,
And you tell me this time
Nowhere I go I'm not by your side,
Time after time after time
Never you use it to control by my side,
Never you made and you tell me goodbye
You are my side, you are my soul
You never told
Nobody nobody nobody
