

Gil, Close 2 Perfect

I can see you right beside me
Everytime I close my eyes
And I swear you're looking perfect
In the moonlight of my mind
But am I only dreaming
Tell me, could this be for real
Tell me, tell me, tell me now

[Chorus]

We're close, close to perfect
That's what we were
(That's what you say)

In my dreams

We're close, close to perfect
That's how it seems

In my dreams

(In my dreams)

It's hard for me

To say I love you

Simple words are always tough

So hard to say

Too many nightmares

I'd give you shelter with my love

Am I only dreaming

Tell me, would you go my way

Tell me, tell me, tell me now

[Chorus] x 2

Tell me, tell me, tell me

While we're only close to perfect
