

Gil Scott-Heron, Better Days Ahead

And now it's time
To gather all the things we need to fly
To better days ahead

Just wave goodbye
We've better things to do now, you and I
In better days ahead

Just take my hand
You're one I need to understand
For better days ahead

With you I can stand
As long as you respect me as your man
There's better days ahead
Yes, coming on

Just take my hand
You're the one I need to understand
For better days ahead

With you I can stand
As long as you respect me as your man
There's better days ahead
Yes, coming on

Coming on
Better days ahead
Coming on
For you and me
