

Gil, She

She is everybody's darling
The cute little darling
But she's on her own

She's walking out the door, our little beauty queen
She's acting, and she needs her scene
Drunk again, her eyes are closed, she's already gone
No friends, no help, from anyone

Big time losing, big time confusing
She's completely incomplete
From head to feet, from head to feet

Chorus:
She is everybody's darling
The cute little darling
But she's on her own
Nobody is calling when she's falling down in a hole

Another day, another night is going by
She's happy and she's so high
No more words, everything's been said
That's her fame, she's having rum and cocaine

Big time losing, big time confusing
She's completely incomplete
From head to feet, from head to feet

Chorus (repeat)
