

Gil, Silence

The pain is still here
But the silence heals
Wish me luck
That's all I've got
To start a new life after this
There was someone
But now she's gone

Everything keeps turning
And everything is still hurting, still hurting ...

Chorus:
Silence heals all the pain
Silence heals what remains
Silence heals all the pain
Silence heals what hurts my friend

Think about it
Who's there for you
I thought about it
There's nobody but you
I found peace
Deep in myself
But why do we cry?
And why do we die?

Everything keeps turning
And everything is still hurting, still hurting ...

Chorus
