

Gil, U I

It's easy to say but so hard to do
For some it's four letters
For me it means you
I play all the games
Don't want to pretend
So baby don't let this come to an end

[chorus]
Only you and I under the sky
Only you and I never say die

All the things I do are better with you
Always you and I till forever it's through

Let me be break cause that makes me strong
And give me the power I need to move on
Like one and one can be more and two
Feels like nothing that we couldn't do

[chorus] x 2
