

Gilbert O'Sullivan, Water Music

Let the water music
Take you to the brim
Let the water music
Take you for a swim
Let the water music
Teach you to roll
Let the water music
Soothe your soul

Let the rhythm of it
Wash you away
Let the vision of it
Be of a bay
Let the crowd around you
Sink down a hole
Let the water music
Soothe your soul

Water music is the essence of life
Jump into it and it opens up wide
Off your shoulder
It can carry the weight
Water music is great

Let the water music
Fill you to the brim
Let the water music
Hold your breath in
Let the running of it
Gently cajole
Let the water music
Soothe your soul

Water music is the essence of life
It can rid you of all trouble and strife
Jump into it as it opens its gate
Water music is great

Let the water music
Fill you to the brim
Let the water music
Take you for a swim
Let the water music
Get you to roll
Let the water music
Soothe your soul
Let the water music
Soothe your soul

Let the water music soothe your soul

Water music is the essence of life
Jump into it and it opens up wide
Off your shoulder
It can carry the weight
Water music is great

Let the water music
Take you to the brim
Let the water music
Take you for a swim
Let the water music
Get you to roll
Let the water music

Soothe your soul
Let the water music
Soothe your soul
