

Gina T, Sail over seven seas

Day by day I miss you so
You have to go my love
Where a ship so far away
You don't tell that will return
Before the autumn comes
Everyday I dream of you

[BRIDGE:]

In my dream a little seagulls
Flying through the darkest night
Searching for some teardrops in
The wind with the ship of lonely loveless
I sail over seven seas
Try to find the captain of my heart

[CHORUS:]

I sail over seven seas
To find to your heart
I sail through the darkest night
I sail to your heart
I sail over seven seas
To find to your heart
I sail with the winter night
Oh... alone in the dark
I don't fear the stormy night
And night don't feel too cold
All because I miss you so
In the distance I can see
The island of my home
Oh... I like to be with you
