

# Girls Aloud, Close To Love

Dust dust dust dust  
Dust dust dust d-dust

"Got so close to love  
I can almost taste the kill  
Barely close enough  
But I could not make the deal

Got so close to love  
I can almost taste the kill  
Barely close enough  
But I just can't close the deal"

I was Snow White til I started to drift  
Baby I didn't care til I saw you there  
And your manner made my animal kick  
But I just didn't dare, call me crazy yeah

Everything I ever had to lose  
Is standing in the way of me and you  
Panic built these walls in front of me  
And nothing but my heart can set me free

"Man get up"  
We're gonna start this fire  
"Tangled up"  
Because I know I should  
"Can't get up"  
Watch the flames go higher  
"Tangled up"  
We're gonna need more wood

I'll confess I'm in a real big mess

With the guy I love but I can't say yes  
Now my only bet is to take a plane ride west  
Cos I can't regret what I ain't done yet

Man with the chemical stare, hands off  
Guy with the terrible hair, back off  
Dude with the look in your eye, leave it  
Man with the beautiful ride, beat it
