

# Girls Aloud, Long Hot Summer

I know you like to wear my dressing-gown,  
When i'm not there.  
I guess you like it in my shoes.

Just coz you drive a Mazarati  
And the ladies stare  
Don't mean you'll go as fast as i do.

I know it's summer in the city  
And the sun is high  
But you can play it cool again  
Coz boy i seen you disco dancing  
With your pants on fire  
We need a little tropical rain

So baby, baby  
Watch the needle when your heading south  
You drive me crazy  
Just remember you can burn me out  
So get down...

It's been a long, hot summer  
And it's 95 degrees in the shade  
It's only Sunday morning  
And I need that Friday feeling again

You put me in a fever 50 stories high  
And suddenly i'm freezing  
And i don't know why  
It's been a long, hot summer  
And i'm shaking like a cool lemonade

If you wanna get fresh  
Get outta my car  
Coz the boys up due we're going to fast  
I'm taking my time now

If you wanna fly high  
Keep outta the sun  
When your fingers start to burn  
It's no fun  
So why don't you climb now

If you wanna get fresh  
Then take a cold shower  
Put your back on ice  
Before you turn sour  
Nobody can fool me

Now i'm cleaning my head  
And dusting my eyes  
Every time i feel the temperature rise  
I need you to cool me

I'm partied out of house and home  
So baby if you fight me  
How you gonna like me

Runnin down that Old Kent Road  
So think before you bite me  
How you gonna get back home

It's been a long, hot summer  
And it's 95 degrees in the shade

It's only Sunday morning  
And i need that Friday feeling again

You put me in a fever 50 stories high  
And suddenly i'm freezing  
And i don't know why  
Its's been a long, hot summer  
And i'm shaking like a cool lemonade

Coz I  
So why do you bite me [x2]

A little late to take it slow  
But i couldn't wait to party

At the cannon ball  
Not what i wanted  
Now i've seen it all  
So find me

I've ricoched  
Around the world  
Drinking pink champagne  
It's Easy!
