

Girls Aloud, Love Machine (Demo)

Took it in my stride
Live by the wayside
I took a long ride
And found something new

I've never been lonely
But now that you know me
I think you can show me
A something or two

Sleep tight, I won't bite
Got a look upon my face
I know it seems like I might
I'm shy most of the time
Feel like I'm out of place
Be my valentine
I put your number on my wall and I remember your taste
Your time at my place
I'll get into you

Come put your hand in my hand
Understand that you can
Be the one that you are
Come put your hand in my hand
Understand that you can
Be the one that you are, whoa!

"How can I feel this way?
Hang on to what you say
This is so very strange
For me
How can I feel this way?
Hang on to what you say
This is so very strange
For me"

I've been going crazy trying to sleep
Trying to find a way of breaking promises I keep
I've been searching myself for the key
I've bitten off what I can chew and now it's down to me

Sleep tight, I won't bite
Got a look upon my face
I know it seems like I might
I'm shy most of the time
Feel like I'm out of place
Be my valentine
I put your number on my wall and I remember your taste
Your time at my place
I'll get into you

Come put your hand in my hand
Understand that you can
Be the one that you are
Come put your hand in my hand
Understand that you can
Be the one that you are, whoa!

"How can I feel this way?
Hang on to what you say
This is so very strange
For me
How can I feel this way?
Hang on to what you say

This is so very strange
For me"

Oh
It's very new
Can anybody tell me what to do?
Oh
This feeling's very strange
Can anybody tell me what's my name?

Only gonna take you
Only wanna take you
Only wanna shake you down
Only gonna take you
Never gonna break you
Only wanna shake you down
