

# Giuffria, Radio

One child, he follow the sound, to a far away place, lonely old town, chasing your dream  
Guitar on your back, fire in your heart, you live like a rebel, you know what you want  
Blood hot and ready, you're breaking away, you rock steady, you'll make it some day

You're on the radio, ah, oh yeah  
You're on the radio, well on and on you go

Taking your chance, you reach for a star, there's no looking back, you know who you are,  
you know who you are.

Gunslinger you shoot from the hip, and now it's your time, you never quit  
Blood hot and ready, you're breaking away, you rock steady, you'll make it some day

You're on the radio, ah, oh yeah  
You're on the radio, well on and on you go  
You're on the radio.

Wings over waving sun, play me tough, play me loud  
Believe in your dream, believe in your dreams
