

# Glass Tiger, Bad Things

What you have here is a classic situation  
With this boy-girl thing comes a lust called fascination  
Sarah knows that she's the best that's why we partied  
So get on over here girl we can get this love thing started

I've been told you like to do it for such a long time  
That's okay cause I'm a legend in my own mind  
I don't know if I can take this any longer  
I think I'm focused but then my mind just starts to wander

Bad things  
All you ever talk about  
Bad things  
You know I'm doing the best that I can  
Bad things

All you ever talk about  
You know that you can do without me

I've been in Heaven but I've never been to Memphis  
I met the devil down in Armadillo, Texas  
And I believe it was you  
I believe it was you

(SEXY SIGH)

All you ever talk about  
You scream and shout about  
But you can do without me
