

Glass Tiger, Love Or Fascination

I've been waiting all night long
waiting for a friend of mine
I can leave before it falls
Shivers run down my spine

What she gives to me
You could never, ever see

When she makes her moves till dawn
When she lays her body down
Tie me up wet me down
Oh she's got that magic touch

Is this love or fascination
I've never seen the world from

This view before
Gotta love em and leave em to beg for more
Is this love or fascination
Dance little darling dance
She'll give it up
That's what love is for

I'll tell you how she blows my mind
Oh she's like a loaded gun
Little men will lick you down
Oh I'm not the only one
Love placed binds on me
will she ever, set me free
