

Glenn Hughes, It's Alright

I don't want 2 talk about confusion
I don't want it livin' in my head
I just want 2 talk about a solution
Do u understand, remember what I said? !

U can take all my money
Now I'm singin' my song
And I think that it's funny
Why did I wait so long?

It's alright if I'm dreaming
It's alright, what's the moaning?
It's alright, face the measure
It's alright, take the pressure!

I'm livin' in a different generation
I'm livin' with an automatic mind

Now tell me can u feel the new vibration?
Now I just want 2 hear it one more time

You can take all my money
Now I'm singin' my song
And I think that it's funny
Why did I wait so long?

It's alright if I'm dreaming
It's alright, what's the moaning?
It's alright, face the measure
It's alright, take the pressure!

It's alright if I'm dreaming
It's alright, what's the moaning?
It's alright, face the measure
It's alright, take the pressure!
