

Glenn Hughes, Lay My Body Down

I've been travellin' for so
many days
thru' the valleys I have gone
I've been searchin' in so many
ways
for the things that I have
done

now I ask you - do you love me
and don't tell me any lies

Chorus:

I will keep on ridin' in the
early morning light
'til they lay my body down

behind the conscience of every
man
is a thing we all must trust
as I look across the land
I see shadows in the dust

so how can you judge me
when you don't know me
I know you'll miss me when I'm
dead and gone

I will keep on ridin' in the
early morning light
'til they lay my body down

so close your eyes and you
will find me
i'll be watching over you
I will be with you, you'll feel
my spirit
I know your faith will put you
thru'

now, I ask you - do you love
me...
