

Glenn Hughes, Rain On Me

Good people
Please open you eyes
My people
Here come the moon on the rise

I'm steady to fly 'cross the sky
Sightation
Astral projection tonight

And I know that it won't be long
'cause the temperature's much too strong
Can't you see I've been holding on
Now I am singing a simple song

So let it rain on me
Now the angels are fallin'

Rain on me
Now the whole world is callin'
Rain on me
The angels are fallin'
Rain on me

It's so easy
Easy to walk like you talk
Try to please me
I've been alone in the dark

Let it rain
Let the water rush over me
Can you feel the rain
I can feel the rain
