

Glenn Hughes, This Time Around

The world around us hangs in doubt
You face a crime that we'll hear about
To pay the cost, would never be the same

Eternal lovers, we're not to blame
There's no mistake, there's no refrain
The same surroundings that stood
Are here again - this time around

As I look around you can't be found
To lose you, I'd rather see the endless
Time and space go passing by

This time around
This time around

So look around, we all will be found

In love

The world around hangs in doubt
You face a crime that we'll hear about
To pay the cost, would never be the same

Eternal lovers, we're not to blame
There's no mistake, there's no refrain
The same surroundings that stood
Are here again - this time around

As I look around, you can't be found
To lose you, I'd rather see the endless
Time and space go passing by

This time around
This time around
