## Glenn Medeiros, Long And Lasting Love (Once Ir

Long and lasting love Not many people find it But don't you do their whole life through Put their hearts and souls behind it Long and lasting love

Long and lasting love It's what I've always dreamed of and when I looked into your eyes I knew I'd really seen love Long and lasting love

We've gotta once in a lifetime All the dreams we're waiting for I'm just beginning to come true It happens once in a lifetime When you find the special girl who knows the meaning of love like you

Long and lasting love We shares for many reason A special bond that caused me on the changing of the season Long and lasting love

When our love like goes up here As care as you through all the years Long and lasting love

We've gotta once in a life time All the dreams we're waiting for I'm just beginning to come true It happens once in a life time When you find the special who knows the meaning of love like you

Long and lasting love It's what I've always dreamed of When I looked into your eyes I knew I'd really seen love

A long and lasting love It's what I've always dreamed of My long and lasting love
