Gloria Estefan, When I See Your Smile

I get a little tongue twisted Every time I talk to you, when I see you And I'm so glad that you just missed it The way I stare to memorize your face To kiss you in my mind Love you all the time Cause when I close my eyes I still can see your smile Its bright enough to light my life Out of my darkest hour Please believe its true When I tell you I love you I've taken too many chances Searching for the truth of love, thats in my heart Tell me if I've made the wrong advances Tell me if I've made you feel ashamed Cause I know I have to do this Would you hold my hand right through it Cause when I close my eyes I still can see your smile Its bright enough to light my life Out of my darkest hour Please believe its true When I tell you I Love you Oh, Oh Had to let you just what would happen Yes I had to let you know the truth I know I've got to do this Would you hold my hand right through it Would you Cause when I close my eyes I still can see your smile Its bright enough to light my life Out of my darkest hour Cause when I close my eyes I still can see your smile Its bright enough to light my life Out of my darkest hour You know now this is true When I tell you I love you
