

Gluecifer, Automatic Thrill

Automatic thrill come
Come and get me in my sleep
Automatic thrill come
Come and get me in my sleep

Make a stain upon the sheet
Got me smelling sweet
Make a stain upon the sheet
Got me smelling sweet

Dark blue movie on the inner screen
Depravated plot got me feeling so mean
Big bad cast and they come in all shapes
Automatic thrill when I pull the drapes

Got me runnin down an alley full of hate and melancholy
Got me suckin on a bitter pill sucker for the big kill

Automatic thrill

Been a GI fighting on the front line yeah
Been on airports looking for the right sign yeah
I have been with sisters I have been with moms
I've had blisters all over my palms
I have given life I have made the kill
Got myself addicted to the automatic thrill

Make a cut -to the place -where I get to see that gory face
Add a helicopter noise add some freaky looking boys
Get it runnin drag me in and put the spittle on my chin

Girlfriends making out in prison cells
Hunchback creep and he's baniging on the bells
Big black dog sitting at my door
Automatic thrill and I want it some more

Add a helicopter noise add some freaky looking boys
Get it runnin drag me in and put the spittle on my chin
Got me runnin down an alley full of hate and melancholy
Got me suckin on a bitter pill sucker for the big kill

Automatic Thrill got me sucking on the pill
