

# Gluecifer, Black Book Lodge

Bleak young fop watching lava lamp glowin  
wanna build a little more esteem  
Hang out in the black room eating all the mushroom  
wanna have the blackest dream.

So come on....

Black book, black lodge  
Something evil that you cannot dodge  
Black knight in a black club  
Kid screaming in a black tub

You can wear your long hair going to the book fair  
When you gonna be there in the old mans lair  
Holding private trial, living in denial, youll be the hippie scare

Come on.....

Black book, black lodge  
Something evil that you cannot dodge  
Black knight in a black club  
Kid screamin in a black tub

Well youre tired of the textbook,  
now you wanna read the black book....

Black black lodge (etc)
