

Gluecifer, I Saw The Stones Move

I wanna be out there doing nothing seein big rock moving
I wanna get high allright
I see the tracks are forming,
stones keep moving, get my head ruined
Wanna be on that ride all night

I did the two ton boogie
and then the bed rock shake
I did the desert froogie
and then my head got baked

I wanna be out there doing nothing seein big rock moving
I wanna get high allright
I see the tracks are forming,
stones keep moving, get my head ruined
Wanna be on that ride all night

(repeat chorus)

I saw'em moving moving over the sand
I saw'em moving - in the desert land
I saw'em moving - and it was out of hand yeah
