

Gluecifer, Powertools And Piss

Got your beep and I am on my way
Light falls and I am on my way

Coz Ill nail that picture right thru your wall
I got a black bag ready when nature calls
Got two by four by one to twelve
Got a generator buzzing with a sound from hell

Yeah I got the power tools and piss

Well you called for it once and now you want it some more
Youre domesticated and I poop on your floor

Ill leave a stain in the middle of a carpet so clean
Im going ancient baby if you know what I mean
Got a titan club for a porcelain bell
Got a generator buzzin with a sound from hell

Well Ill nail that picture right thru your wall
I got a black bag ready when the nature call
I got a two by four by one to twelve I got a generator buzzing

I want you all to listen
I want you all to see
and I want you all to feel it

Yeah I got the powertools and piss...
