

God Lives Underwater, Can't Come Down

Starved myself
From poisoned love
Memories with traces of
What knocked me out
Knocked me out
Act as if I'm just alright
But I've already lost my sight
And you're treading ground
Without a sound

BRIDGE

Something
For nothing
I know that I haven't given
You that I haven't risen (above)
Fight for love
Or love to fight
Never knew my
Wrong from right
Patiently
I wait for the day
When it hits me
Hardest yet
And it's real
Not second best
My hearts for you
You know it's true

BRIDGE

CHORUS

Please
Believe me
Round and round
Hear the sound
Reality
Crashing into me
I hear the sound
But I can't come down
