## God Lives Underwater, Can't Come Down

Starved myself From poisoned love Memories with traces of What knocked me out Knocked me out Act as if I'm just alright But I've already lost my sight

Without a sound

**BRIDGE** Something For nothing

I know that I haven't given You that I haven't risen (above)

And you're treading ground

Fight for love Or love to fight Never knew my Wrong from right

Patiently

I wait for the day When it hits me

Hardest yet And it's real

Not second best My hearts for you You know it's true

**BRIDGE CHORUS** Please Believe me

Round and round Hear the sound

Reality

Crashing into me I hear the sound

But I can't come down

**BRIDGE CHORUS**
