

God Lives Underwater, Whitenoise

Another Pendulum
Swinging to the left and to the left again
I tried to stay to the right
And do what's right
We're all where to constant fight
You know it
I've been the one
Away
I'll be the first to say
Now I've become the rat
In experiments that I invent
And put myself through
I can't explain the process in my brain
All I say comes out the same
Like white noise
I've been the one
Away
I'll be the first to say
That way up in
It's not cool to be the one with nothing
I've always got nothing
I've been the one
Away
I'll be the first to say
That way up in
It's not cool to be the one with nothing
I've always got nothing
