

God Or Julie, It's Not Over

as the night turns colder and i get sober if it's not over every little
thing i'll show ya shot down like a soldier brought back like a coda
since it's not over every little thing i'll show ya we can make the
world start over fall untill it takes you lower if it's too late than
i'll go every little thing i'll show ya take life from a donor waste
away like a loner if it's not over every little thing i'll show ya
start me up like a motor shut down into a coma if it's not over every
little thing i'll show ya down falling slowly towards the ground catch
me i won't make a sound crush you it's not what you found
