

God's Bow, Twilight

You came here
To the land of shadows
To find the gate
Which will guides you
To the another side
To the another life

So long way to the light
And many memories of humanity
Youll follow by valley of deadly souls
Looking for forgiveness...

But now only night-butterflies welcome you
To the kingdom of twilight

Livid-grey sky doesnt open yet
So go and find the gate
Which will guides you
To the another side
Through the kingdom of twilight

Please find and go
Through the gate
- finally is - turn the key

- finally is - turn the key
Only brightness now
Hope and resurrection
