Godfathers, She Gives Me Love (The Godfathers

Don't claim to understand her I wonder what she's doing with me Don't know what she does with the rest of her time But she gives it to me for free

She gives me love

She gives me love

She never takes my money But she always steals my time

She's the kind of a girl that if you gave her the world

She'd say it wasn't worth a dime

She gives me love

She gives me love

It's not easy to explain it

The effect she has on me

Make a dumb man talk and a blind man see

That sweet little mystery

She gives me love

She gives me love

She gives me love

She gives me love
