Godsmack, Mama

Oh mama what have I gone and done? With all these years that I've been gone My life changed me way too fast I don't know if I could last

Help me find my way And mama save me Help me find today Mama please come And save me, oh

Oh mama if you Could've only seen Everything I've done And where I've been If only one Thing I would ask Why did you let me Grow up so goddamn fast?

Help me find my way And mama save me Help me find today Mama please come And save me, oh

There's nothing more That you can do It's gone beyond what You can't help me through An emptiness has covered me Oh mama come and save me

Help me find my way And mama save me Help me find today Mama please come And save me, oh Help me find my way And mama save me Help me find today Mama please come And save me, oh

There's nothing more That you can do It's gone beyond what You can't help me through An emptiness has covered me Oh mama come and save me Oh mama come and save Oh save me... no! Oh please mama save...
